

Medusa

#the sound of seduction

While this Medusa won't turn you into stone at first glance, you may find it difficult to leave the room once you are seduced by its sound.

Richter's newest amplifier brings you a massive 100 watts of beautiful, warm, clear valve sound.

While its dedicated Phono input makes it a natural for turntable enthusiasts, the warmth it will bring to your CD and digital music could open your ears.

Of course the Medusa is perfectly matched to our newest and best-ever speaker range, the Legend Series V.

Ask your dealer for a listening demonstration. But don't be surprised if they ask you to leave at closing time!

With Phono input for analogue aficionados.
Power output 2 x 50 Watts RMS, dual-mono design.

 Frequency Response: 20Hz–50kHz (5W)
 Distortion: 0.1% (10W)

Line input stage

S/N Ratio (LINE): 86dB
 Input Sensitivity: 300mV
 Unbalanced Input Impedance: 80k ohms

Balanced Input Impedance: 95k ohms

Phono stage

MM Impedance: 47k/68pF
 MM Input Sensitivity: 3.5mV
 S/N Ratio (Phono): 78dB

Remote control

Full function IR remote control

General

Max. Power Consumption: 300W
 Tubes: KT88x4, 12AX7x2, 6SN7x2
 Dimensions: 430x350x180mm (LxWxH)
 Weight: 30kg

“ There was a combination of complete lack of compression along with a certain abandon, unconcern for propriety or for clinical accuracy that made for a particular engaging, indeed exciting, delivery. ”
